Mifare Electronic Lock System

For Hotels, Resorts, Condotels and Hospitals

- MIFARE chip is manufactured by Philips USA
- High Security - each Mifare chip has its own UNIQUE code, from Philips USA
- Manipulation is impossible with more than 4.5 billion code combination
- Multi-Key Function - Mifare chip card can be used as a Guest Card, Membership Card, Cash Card, for car parking systems & elevator access control systems
- Data in the Mifare chip is protected from external influences like temperature, water and moisture. Magnetic fields have no influence on the data also.
- Mifare card can also be used in credit card / pre-paid applications
- Data will be written on the Mifare chip, i.e. VIP name, average stay in one year, personal data
- Economical - cards can be re-programmed for 100,000 times
- Printable Mifare Chip Card (for membership cards with pictures)
- Protocol function, the last 850 opening records of the electronic door lock can be retrieved
- Built-in alarm for the Mortise Lock
- Double-locking capability from the inside with anti-panic feature
- Mifare electronic door lock uses 4 pcs. X 1.5V AA batteries
- Battery life span 12 months (signal & alarm is sounded if batteries are low)
- Fully-integrated with Micros Fidelio Hotel Management System (Opera)

Energy Saving Device (ESD):

- WH-30MF for Mifare series
- WH-30IC for Smart IC series
- Only Mifare or Smart IC cards will activate the power inside the room. Other cards (eg. Credit Cards, calling cards and the like) will not activate the Energy Saving Device
- Technical Data: 30A / 6600 watts
