## MENTHA™ CLASSICAL SERIES

MENTHA, literally means mint, a plant with refreshing fragrance which can eliminate fatigue, relief pressure and keep calm. The legend has it that Pluto fell in love with the beautiful spirit MENTHA, which irritated Pluto's wife and turned MENTHA into grass. However, MENTHA became a grass loved by more people with its stronger fragrance after being stamped.

MENTHA Classical Flip switches series was inspired by mint's connotation, low profile but refreshing, not strong but tenacious, witty but beautiful.

Utilizing latest injection molding method, electroplating, laser engraving and modern art contributes to gorging this competitive product that perfectly displaying its strength and elegance.

ControlCom™ elevates the standards of guestroom detailing, refined aesthetics and technical innovation to the highest level with the MENTA™ series traditional flip switches.

Manufactured to the highest quality using the latest manufacturing technique, MENTA™ series will enhance the guestroom appearance and exclusive outlook, a prerequisite expected by the hotel and demanded by the interior designer.
