As the name suggests, the new WMF URBAN collection is anything but rustic. It is modern, assured and creative, chic, individual and stylish. The curved lines lend it an effortlessly graceful look that is perfect for any contemporary or classic table. It is an all-rounder that can be combined with many of the other products in the WMF Hotel range to outstanding effect. For example, it is the perfect partner for the modern PURE EXCLUSIV collection as well as our coffee pot and teapot ranges.

Banquet

WMF URBAN not only offers clever features and outstanding flexibility of use, it also brings a touch of eye-catching design to your table. Thanks to the distinctive shape of the design products in the WMF URBAN collection, they work just as well on their own as they do in combination with other pieces. Together with an establishment's existing tableware, they never appear out of place and function perfectly with other products in the WMF family.

Coffee

The starting point for the WMF URBAN range was the popular WMF classic, IMPERIAL. The traditional elegance of the tea and coffee pots, sugar bowl and milk jug is the perfect companion to the sleek elegance of the new design line. Whether you serve tea or coffee in the classic pot, the contemporary latte macchiato glass or the practical WMF insulated pot, you can be sure that everything matches. The WMF URBAN collection ensures that you present a coherent style at your table, whether for breakfast or when having a coffee.
