04 WALL MOUNT SPEAKER TELEPHONE

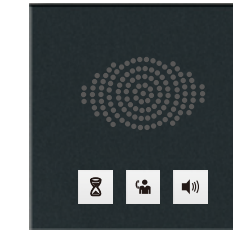

Personalized customization

The guest room panel telephone is carefully crafted with a stylish and elegant appearance and powerful functions. The color of the telephone, panel material content, etc. are customized according to the hotel style, highlighting the artistic taste of guest room design, helping high-end hotels create personalized hotel services, and bringing guests comfortable phone calls experience.

WALL MOUNT SPEAKER TELEPHONE

AU2068A(1S)SP

Features:

Bathroom-specific telephone, resistant to high temperature and humidity

SMT chip components, double-sided fiberglass core board, moisture-resistant, flame-retardant, stable and reliable

Adopt standard bottom box, easy installation and maintenance, neat and elegant appearance

The panel is made of brushed metal or ABS plastic material, which is high-end and durable.

No handset coiled cord, high-quality hands-free call line, clear call effect

Creative appearance: panel-embedded hands-free bathroom phone, universal bottom box embedded installation

Panel material: 1) ABS matte panel, matte black and white can be customized; 2) Brushed metal panel material, brushed silver\gold pin black or customized

Personalized customization: There are three speed dial buttons, which can be customized such as: hands-free, service center, emergency call, SOS, do not disturb, etc. to facilitate guests and improve hotel services

External cable: There is no need to connect the power. When using the phone, you only need to connect the phone line to the guest control, and then add a network cable to the guest control host

Project Introduction

Ethiopian Airlines Skylight Hotel is close to Bole International Airport and across the street from Ethiopia's largest convention and exhibition center. It enjoys unique natural geographical advantages. It is invested by Ethiopian Airlines Group and entrusted to be managed by AVIC Grand Skylight Group. It is the largest independent hotel in Africa, with a total of 1,024 modern five-star rooms and suites, as well as multi-functional conference halls and event facilities that can accommodate up to 5,000 guests,

and 19 specialty dining venues, including Ethiopian, Italian, Arabic and Asian style restaurants, cafes and bars etc.

Project Highlights

COTELL provides hotels with a full range of customized guest room electrical appliances, including telephones, electric kettles, hair dryers, refrigerators, safes, electronic scales, electric irons, coffee machines and other products, which have been well received by hotels and guests. , contributing Cotell’ s strength to the “Belt and Road Initiative” and China-Africa friendship.

Project Introduction

The Ritz-Carlton, Millenia Singapore is located in the iconic Marina Bay location, and guests can immerse themselves in the picturesque scenery of the hotel. This luxury hotel is ideally located to allow guests to experience the vibrancy of Marina Bay. The Singapore Flyer, Merlion and many other attractions are just a short walk from hotel. The Ritz-Carlton, Millenia Singapore offers lavishly appointed guestrooms and suites, a 4,200-piece museum-quality art collection, and an exclusive Club Lounge on the 32nd floor can enjoy panoramic city views.

Project Highlights

COTELL provides full range of customized hotels telephones, which have been well received by hotels and guests.
