

GERMCLEAN™ 5000 SERIES AUTOMATIC HAND SANITIZER
The New Normal Disinfection Technology
for **NEW NORMAL** Environment

AUTOMATIC CONTACTLESS HAND SANITIZER

GermClean™ Model HSN-5010 Hygiene Station

AUTOMATIC CONTACTLESS HAND SANITIZER

Introduction

Automatic contactless hand sanitizing dispensers are touch-free dispensers that operate through Advanced Infrared Sensors, eliminating the need to touch, ensuring the highest level of hygiene and preventing the spread of germs. They are important assets in combating the spread of infectious diseases. These dispensers show your customers that you care about their health and the health of your employees.

Advantages

- **Contactless**
Furthermore, a more sterile environment is created by the improvement of the automatic sanitizer dispenser. By using the pump, we will leave behind a variety of bacterial colonies. Then they will interbreed and lead to a more resistant strain of bacteria which can re-contaminate different hands and would not be completely eliminated by the anti-bacterial soap or sanitizer. Wider spectra or higher levels of resistance in the present colonies are due to interaction and/or complementation between the resistance genes. Bacterial transmission will be eliminated once we stop using and touching the pump.
- **Preset Disinfection Liquid Volume**
These devices will only distribute a set amount per motion activation. A specified amount to be dispensed can be set to a highly efficient quantity in which waste will be minimal.
- **Flexibility.**
Besides hand sanitizer, dispenser's structure also works for other liquids: soap, lotion, laundry detergent etc. The wide range of possibilities widens the use of the dispenser to various other locations other than the bathroom.

APPLICATIONS AREAS

Automatic contactless hand sanitizer dispensers work greatly for a variety of locations, including:

Hotels

When a guest check-in or checkout of your hotel, the guest can sanitize their hands at the entrance, the reception and at the escalator entry. Automatic contactless hand sanitizer dispenser can also be placed along the floor corridor, public toilet, gymnasium, restaurants, bars, and various other places for guest convenience.

Hospitals

Patient move in and out of the hospital compounds can use the automatic contactless hand sanitizer dispenser to clean their hands placed at different locations of the hospital buildings such as entrance, reception, registration station, waiting area, consultation room, pharmacy, ward, lab, etc.

AUTOMATIC CONTACTLESS HAND SANITIZER

Restaurants:

When customers enter, wait to be seated, and leave your restaurant, they can sanitize their hands to limit the spread of infectious diseases.

Retail:

After customers purchase the products, they can use the hand sanitizing solution from the automatic contactless sanitizer dispenser and feel safer when returning home.

Education:

With schools and higher education campuses reopening, automatic contactless hand sanitizer dispensers can keep student hands sanitized going to and from classes

Office and Government Buildings:

An automatic hand sanitizer dispenser gives your employees and customers peace of mind. Hand sanitizer dispensers fight germs to keep your customers and your employees safe.

AUTOMATIC CONTACTLESS HAND SANITIZER

SPECIFICATIONS

Floor Standing

The benefit of not requiring an external power source allowing them to be placed anywhere you choose.

Customized Design

The dispenser casing printing can be customized*.

PRODUCT MEASUREMENT	20.5cm × 14cm × 119 cm
WEIGHT	12 Kg
CASING MATERIAL	Aluminum + Iron sheet metal + ABS/Stainless Steel
LIQUID CAPACITY	4 Liters X 2
SENSING DIATANCE	2-10±2cm
POWER SUPPLY	5x"AA" Batteries/Power Adapter
BATTERY USSAGE TIME	≥65000 Times
STANDBY CURRENT	≤100μA
COLOR OPTION	Dark grey/ White /Green

HIGHLIGHTS

- Battery operated. Can move anywhere.
- Come with 4L Large refillable bottle.
- Suitable for 75% alcohol content sanitizer.
- Durable control box with adjustable dispensing liquid dosage of 0.2ml & 0.4ml & 0.6ml
- Floor standing for safety use.
- Ideal for all kinds of public environments.
- Liquid shortage and low-pressure reminder function

Freestanding

The benefit of not requiring an external power source allowing them to be placed anywhere you choose

Free Standing

Large Capacity Liquid Container
