

Wanzl

X-BED

Sturdy metal bed * Fast-folding frame
Mobility with four swivel castors

"Please could you bring an extra bed to our room?"

Wanzl Hotel Service intends to fulfil all these wishes and, with the new **X-Bed**, offers a solution that is as flexible as it is comfortable in order to provide additional sleep options, even at very short notice. Folded up to save space in the housekeeping office, securely fastened with a strap and two castor-mounted brakes, the **X-Bed** is ready for use at any time. Thanks to its four swivel castors and effortless maneuvering, it can be quickly taken to where it is needed. It is easily set up in the room in next to no time thanks to the practical automatic folding mechanism with a secure lock. The seat height of the **X-Bed** is approx. 55 cm / 21.7 in with a lying surface of 80x200 cm / 31.5x78.7 in. The rectangular metal frame offers stability. The mattress rests on a lattice grid which ensures perfect ventilation. A foldable mattress made of polyether foam is optionally available as an upgrade to the bed's comfort. It can also be sterilized and its high-quality, durable quilted cover is both removable and easy to wash – an "**X-Bed extra**", so to speak – and tailored for the hotel industry.
